SweetBed is a game which makes you can dance freely with music and chose own music when you and others dance with each other. One of the special features is you can see dancing characters on screen, and not just a fixed image. So you can know their state of emotion. Every character is different from each other, like the state of their emotions and behavior. 1. Choose your own song to dance2. Feel the excitement of the game by seeing all dancing characters3. If you are good at dancing, the game will make a lot of noise!

Features Key:

- highly addictive challenging game
- packed with tons of bonuses and collectibles
- graphics and sound effects are great looking
- you can play anytime and any place
