Game Overview

The Lands Between is a world that came into being after the Elden Continent rusted away. Ever since, the people who govern the Lands Between have lived in a land of chaos, bloodshed, and cultural shifts. As the territory between the Empire and the first colony, Imbei, they live a rough life, pushed around by the whims of each of the Mage Lords. As such, I did not expect for the quality of the world to be so high, but this is what I discovered after exploring the lands. During my latest exploration, I encountered what appeared to be humans but possessed some of the features of an Elden and strange beasts, among other mysterious events.

I chased after that strange beast and I met an old man that is working alone on his farm. It turns out he too is a dragon, and he gave up on hunting down the beast that is rumored to exist somewhere in Imbei. He and his wife have a young-looking baby that looks a bit strange. They are living a peaceful life, but a tale of untold excitement—a legendary tale!—lurks in the Lands Between.
