Field The present invention relates to a technique of a solid state image pickup device using a silicon
substrate, and particularly to an improved technique of a solid state image pickup device used for a
video camera, a digital camera, a monitoring camera, and the like. 2. Related Art A solid state image
pickup device using a silicon substrate, such as a CCD or CMOS image sensor, can be integrated in a
smaller size than a CCD or CMOS image sensor using a conventional circuit substrate. In addition, it
is difficult to produce a defect in a silicon
